DESCRIPTION

This is one of the best audio recording studios located in the competitive area of Barcelona.

The equipment is of the highest quality. Proof of this reflects the large number of projects that have been done and the accumulated number of awards in the history of the study.

The study was fully renovated in 2009 and is in perfect working order, presenting a beautiful layout with separate rooms soundproofed acoustically and great treatment of interiors for an ideal to produce and record the diffuse acoustic environment and an environment best possible way.

The business, apart from the musical production itself has been reinforced by other audiovisual activities such as designing and creating spaces and museizaciones sound, multimedia production, audio for video games, and music production services in general supported by producers and resident musicians.
